Profit Share Program Definition:
Profit Sharing is a food sales program designed to help students raise money for clubs and school activities. During the lunch period students will sell food items where 30% of the total sales will go to the students, 50-60% of the total sales will go to food and labor costs, 10-20% of the total sales will go to Student Nutrition Services.

Student Nutrition Services will Provide:

I. Meeting w/ Site Administration
Student Nutrition Services (SNS) will meet with the site administrator, faculty advisor and student body to determine the food items that will be offered for the profit share Program. The selection must be cost effective as SNS will provide and fund all food and/or beverage costs. The selection agreed upon with a maximum of 3 items per day will be offered at up to two Profit Share Sales locations and not from SNS Beaneries with the exception of beverages.

II. Food Items and Set Up
- All Food and Supplies
- Food Station
- Total Food Preparation
- Initial Inventory Stock and Count
- Paperwork for Sales Accountability
- Change Box Containing $25.00

III. Sales Breakdown and Check Disbursement
Participating schools will receive 30% of the total sales based upon sales per day minus cash shortages to the Student Body. The cafeteria manager will notify the faculty advisor of any cash shortages. SNS will prepare a monthly statement of total sales minus cash shortages and a check will be disbursed, made payable to the school’s student body, for the amount earned. SNS will prepare a Requisition for Payment which will be submitted to the District Accounts Payable office for check disbursement. Once disbursed, Accounts Payable will forward the check to the school Principal for the Student Body.

 Participating School will Provide:

I. Faculty Supervision
A faculty advisor will be assigned to train and monitor daily student performance, shortages and punctuality during operation. Cafeteria staff may assist as needed.

II. Students
- A minimum of 2 students are needed per day to sell the food
- Students must arrive at least 10 minutes before lunch and stay until the end of the lunch period unless they sell out
- Students must verify food quantities and cash money prior to start of lunch period
- Students must verify ending inventory and cash collected at the end of the meal period
- Adequate security and/or adult supervision during meal service is imperative

* Student Nutrition Services will meet with the School Principal periodically to discuss financial feasibility and assess program progress *
